# MINING, BUSINESS AND STOCKS.

## REVENUE CON. STARTS **WORK ON PROPERTY**

Manager O ton Left Today With a Large Force of Men to Start Work In Beaver County.

From now on some splendid development work will be done at the Revenue Consolidated property in the Pine Grove mining district in Beaver county and within a short time some very favoral a results are expected. President and General Manager L. G. Burton left for the district this morning with 12 men to start work on the property. This force it is expected will be increased

Eastern people, it is said, have become interested in the property and taken over the treasury stock. The money for development work has been deposited in a local bank and it is declared there is sufficient means to keep the large force of men at work for the

machine drills are to be used and the property will be equipped for extensive work. An incline shaft is now down 200 feet and with but a small amount of additional work it is expected that some excellent showings in ore will be made. It is believed that in 90 days the big vein that is being sought will be en-

countered.
Considerable \$20 ore has been taken out of the property and some of the ore that has been encountered in the past has run as high as \$30 in gold, 120 ounces of silver and 20 per cent lead.

The property is one of the most promising in the district and with development work should be one of the big

revenue payers.

The property consists of close to 100 claims and a large number of these have already been patented. L. G. Burton is president and A. H. Tiernan. vice president. These two officers with Edward L. Burton, Charles S. Burton and Lewis S. Hills, compose the direc-

#### STOCK MARKET IS WEAK. Securities Fail to Come Up to Stand-

ard on Local Exchange. Activities on the local stock marke

falled to come up to the standard today although the market showed more of an improvement than at any time last week. The buying public has stayed away for a long time, but one of these days, the brokers say, some of the buyers will make a clean up of the good things that are now up of the good things that are now being offered.

up of the good things that are now being offered.

Colorado was lower today and sold at \$1.92½. Columbus Consolidated showed no change, while the stock of Grand Central was slightly stronger. Indian Queen has been lower of late and so has Iron Blossom.

Mineral Flat sold the lowest today that it has in many months, It was disposed of at 8 and 8½ cents. No information is being given out lately on this property. Old miners from the American Fork district assert that Mineral Flat has an excellent body of ore. It is asserted that there is an 1s inch vein of good ore developed and it is known to have a depth of several hundred feet. All the miners at the property have been exceptionally close about saying anything. Persons acquainted with the district assert there is no doubt but what this property will develope into one of the big things there. the big things there.
The number of shares sold today was 62,975 and the amount represented was \$30,314,12.

On the curb market today Uintaly Treasure Hill reached a new low price of 12 cents. Daly was offered at \$1 and Utah Mines Coalition stock

was offered at 75 cen			Bullock	.02

ON KING TUNNEL

The big tunnel which is being driven toward the shart of the Iron King property, in the eastern section of the district, is now in the hill a distance of 1,400 feet, and excellent progress is being made with the work, which is being handled by contract which is being handled by contract. In the shaft the company is doing good work in prospecting the 400 and 600 levels, upon which drifts are being pushed out to the south of the shaft. There has been a report that ore has been encountered in the mine. This report cannot be verified by any of the employees.

ore has been encountered in the mine. This report cannot be verified by any of the employees.

It is quite probable now that the development of the Eureka City Mining company's ground will be carried on at a derth of 1,700 feet from the surface through the shaft of the Chief Consolidated. The shaft is already down to a depth of 1,640 feet and it is the opinion of the management that the shaft can be developed another 100 feet without encountering water to cause much trouble. Regarding the affairs of the new Eureka City Mining company, it is understood that so far as they relate to the alitoment of stock to townsite property owners, they will soon be closed up and the office closed here. Mineral rights have already been secured to the most desirable portions of the townsite, but the proposition will still open for a few days to all owners of townsite property to transfer the mineral or underground rights for shares in the new company.

DISMANTLING MILL.

DISMANTLING MILL.

The big 100 stamp concentrating mill of the Eureka Hill Mining company, on the hill to the south of town, is to be sold to the highest town, is to be sold to the highest bidder. The last time the mill was run was in 1904, when it was shut down because of the marked reductions in freight and smelter charges on low grade ores. This mill which was completed in 1893, was reputed to be the largest pan mill in the world and cost close to half a million dollars. The close to half a million dollars. The machinery, material, etc., will be dis-mounted and sold either in sections or

160 Main Street.

man of this city have a contract for 100 feet of tunneling at the Diamond Queen. The tunnel is in 250 feet, and 40 of eastern people have taken over practically all the treasury stock and have an agreement which practically means control of the mine.

The Comet property is 14 miles from the railroad and is one of the most promising pieces of ground in the country. A number of good shipments have been made from it and the lowest carload lot returned 180 ounces of silver to the ton. Other shipments have been made that ran as high as 250 ounces to 350 ounces of silver. The outcropping is from 125 silver. some little distance from the point from which the samples were taken. The Diamond Queen has the extension of the old Susan vein, which produced considerable of rich ore in the early days of the district. anys of the district.

The Centennial Eureka, as is well known, is now being worked successfully down to a depth of 2,000 feet, and that the property is getting ready to take up work again below this level, or below the "water line," there can be no doubt. On the 2,200 level water has increased in flow to such an extent that

shipments have been made that ran as high as 250 ounces to 350 ounces of silver. The outcropping is from 125 to 130 feet wide and the values are high in silver and lead and a good excess of iron, that makes the ore of an ideal fluxing quality.

By the first of the month Mr. Freudenthal declares there will be considerable activity at the property. He says work is now going on at the Missouri Girl, Maggie Murphy and Colfax groups and it is his intention to continue the development work and then install hoists and sinking equipment on each property. The shaft at the Colfax is down 80 feet in the manganese vein and at present they are in ore that carries 65 ounces in silver. Considerable ore was sacked from the property last winter that ran from \$30 to \$50 a ton in gold.

#### RETURNS FROM IMLAY MINE.

O. W. Powers Comes Back With Some Of the Gold from Mill.

of going after the ore bodies which undoubtedly exist below the water level. A tunnel will no doubt be driven from a point below the Bullion Beck mine, this tunnel to make connection with the Centennial Eureka shaft at a point about 500 feet below the surface. The purpose for this is to save the expense of lifting the water the 500 additional feet to the surface of the main working shaft. The tunnel will also be used in bringing some, if not all, of the ore tonnage from the mine. In the latter in-Judge O. W. Powers, one of the heavy stock holders in the Imlay mining company, operating in Hummining company, operating in Humboldt county, Navada, has returned with some handsome specimens of the work being done by the new mill at Imlay, Shortly after reaching Salt Lake City, Judge Powers left for Brighton. It is understood that the mill at the property is giving some excellent results and in treating about 35 tons of ore a day is coming up to expectations. It is reported that another body of high grade ore has been encountered in the west drift off the 150 foot level. At the time Judge Powers left camp the extent of the new strike was not known.

MASON VALLEY'S FINE EXHIBIT.

Excellent Specimens Taken from Property at Yerington to Goldfield. Some excellent specimens of ore from the Mason Valley property will be among those shown at the meeting of the American Mining congress at Gold-field next month. The exhibit has been

prepared with considerable care by Supt. Jack Welch, who has had charge of the property from the time it started.

The exhibit has been forwarded and consists of 200 pounds of specimens, showing the prevailing or characteristic minerals of the mine, from the surface to the very lowest workings: the gossan croppings and the carbonates of the upper levels, the pyrite, chalcocite, chalcopryte and cuprite. Cubes of native copper, sawed out of the rough as broken down in the face, vertices specimen, chunks of the ideal n chunks of the ideal melting grade revealed in enormous tonnage at the several levels, with the proportions of iron and lime so nearly perfect for economical smelting. Every feature of the ore is represented in this exhibit, which in addition to the level. exhibit, which in addition to the low and medium grade specimens, includes so much high grade that there is not less than 150 pounds of red metal in the exhibit of 200 pounds.

Mr. Welch allowed several mining

men at Yerington to inspect this exhibit before closing it for shipment, and the excitement created was equal to that which usually attends first ports of a Nevada gold strike. In a very few minutes the whole town was in a fever of excitement, and the eyes of many citizens of that place were opened to the real merits of Mason

#### CONCENTRATES.

Ed Freundenthal is in from Pioche today. He expects to leave tomor for New York on mining business. C. A. Pringle, general manager of the

Yampa Smelting company, is on his way to the New York headquarters of the company.

George W. Heintz, western manager of the United States Smelting, Refining & Mining company interests, has gone to New York on business. He expects to be gone about a month The Bunker Hill & Sullivan Mining

company paid its one hundred and forty-third dividend on Aug. 3. It amounted to \$15,000 and brings the total dividend up to date to \$11,106,000. The ore shipments from the Park City

district for last week were: Silver King, 1,783,689 pounds; Daly Judge, 658,000; Daly Judge (zinc), 691,350; Daly West, 1,355,000; total, 4,488,030 pounds. Owners of the Boulder Basin property declare there is no truth to the reported sale of this Park City group. The owners of the property are Henry Welch, George R. Hancock, C. E. Allen and the heirs of Smith Eheringer.

It is reported that the Little Bell company recently put 130 tons of ore from its dump through the Daly West mill with the result that 25 tons of \$40 concentrates were made. There is an average of \$6 a ton profit in each ton of

re on the dump.

According to C. L. Sessions the Little Giant mine in Mill Creek canyon, which is about 10 miles up City Creek canyon, is shipping ore. The ore is snaked down the City Creek canyon side on a lizard, about haif a ton at a time being taken down by the mule. It is said that a fine strike has been made in the Burro

A number of men from Ohio headed by Samuel Scott of Columbus have taken over 95 per cent, it is said, of the issued capital stock of the Bradshaw Mining company. The company is capitalized for 500,000 shares and 200,000 shares are still in the treasury. The deal was put through by J. M. Reynelds, one of the heavy stockholders of the concern.

Every precaution is being taken by the Ohio Copper company to make mining at the property the safest of any in the world. By the system of bookkeeping and the method of exploding shots at the mine, it will be impossible for accidents to happen if orders are carried out to the letter. Manager Mc-Intosh has just ordered a number of the hope of finding the whereabouts of Kavanaugh's relatives but without success.

Mrs. Crandall, the victim of the suicide's mad jealously, is still at the hope of finding the whereabouts of Kavanaugh's relatives but without success.

Mrs. Crandall, the victim of the suicide's mad jealously, is still at the hope of finding the whereabouts of Kavanaugh's relatives but without success.

## JULIUS KRUTTSCHNITT SPENDS DAY IN CITY

Operating Head of Harriman System Looks Over Various Interests Here.

Julius Kruttschnitt, the operating head of the Harriman lines, was in town this morning, with his secretary, H. Neill, arriving in his private car from the Pacific coast. Mr. Kruttschnitt spent the morning with Mr. Bancroft looking over the local Harriman interests, including the new street car barn plant on Tenth ward square, and the new union passenger station at the foot of South Temple street. The distinguished operating magnate expressed entire satisfaction at the excellent condition of both the steam and street railway interests of Mr. Harriman in this city, and confidence in their future development under Mr. Brancroft's administration. The rapid growth of the city also attracted Mr. Krutschnitt's attention, so that he expressed a strong belief in Salt Lake's becoming more and more a center of commercial importance.

Mr. Kruttschnitt leaves his family

or the present on the Pacific coast, enjoying the seaside until it is cooler in Chicago, when they are to return. He has been also in Mexico, going to Guadalajara and thence northeast to the end of the line being built to meet the southern extension of the Sonoral division of the Southern pacific which division of the Southern pacific, which has been built south along the west Mexican coast to Mazatlan, the tem-Mexican coast to Mazatlan, the temporary operating terminal of the extension. There is at present about 200 miles to build before the new through connection is made between the Southern Pacific at Guaymas, Sonora, and Guadalajara. This will make a fourth through north and south line from the United States to the Mexican capital, and open up a most fertile and productive country. The pass with which connections can be fertile and productive country. The ease with which connections can be ease with which connections can be made with this country will stimulate heavily fruit and vegetable production for United States consumption. In fact tomatoes have been shipped in large quantities north as far as Salt Lake, from the state of Sinaloa on the Montane will. Mexican gulf. Then the mining interests being developed to a remarkable degree in that country will prove a generous patron of the road. Mr. Kruttschnitt left by special train for Ogden at 2:30 this afternoon, going east in his private car attached to the regular eastbound train

SUICIDE'S BODY UNCLAIMED.

Coroner Unable to Find Relatives of Dead Man.

Lying on a slab in the morgue, Larry Kavanaugh, who in the passion of jealous rage sought the life of Mrs. Elma Crandall of 143 Social Hall avenue, and then committed suicide last Saturday, is still without identity as regards his relatives, and unless his family is located by tomorrow morning he will be placed in the potter's field.

A telegram received today from Lamar, Colo., stated that no such man or family by the name of Harrison or Kavanaugh is known there, contrary to information furnished the police.
That the suicide had traveled in faroff lands, and had followed the sea, is evident in the tattooing of the body, which is well covered with fantastic designs of such skill and coloring as belongs to the east. There has been nothing about the effects of the man to indicate the past, and his few friends in the city know nothing of him except his life here. Both the undertaker, Jos. Wm. Taylor and Acting Coroner Stanley A. Hanks have made diligent search and inquiry in the hope of finding the whereabouts of Kavanaugh's relatives but without success. which is well covered with fantastic

## MARKET VERY STRONG ALL DAY

New York, Aug. 23.—The general stock opened firm but there were a few stocks which made noteworthy gains, particularly Union Pacific, which was up 11/8 American Car and Great Northern Ore Certificates also rose a point and Amalgamated Copper, Consolidated Gas and Louisville & Nashville nearly as much. New Nork Central opened down 34, but soon recovered most of the loss. The rise was extended among the specialties and some of the rallroads before the market became undermined by the heavy selling of Reading and Union Pacific, Previous advances were

Union Pacific, Previous advances were in many instances wiped out and a good portion of the list was forced below saturday's final prices.

Purchasers of stocks at last week's low prices took profits today which accounted in part for the heavy selling in Union Pacific, Southern Pacific and Reading.

During these periods of liquidation, the market was active but relapsed into duiness when the selling stopped. The general market was unable to withstand these attacks and went off readily when pressure was put on. Southern Pacific was the weakest feature of the second hour's trading and was hammered energetically until it broke to 1324, a loss of 24.

Illinois Central also gave way 2%. Third Avenue 14 and Canadian Pacific.

of 2½.

Illinois Central also gave way 2%, Third Avenue 1½ and Canadian Pacific. Great Northern preferred, Rock Island. American Smelting, Booklyn Rapid Transit, Interborough-Met, preferred and Colorado Fuel 1. A brief period of steadiness followed in which the market became dull, but at noon the market was yielding again, Union Pacific dipping below 207. Some of the Gould stocks showed exceptional strength, Wheeling and Lake Eric rising 3½, the first preferred 2, and the second prefered, Texas & Pacific and the Wabash stocks 1.

Bonds were steady.

The midday pressure was largely concentrated in Union Pacific, which sold down to 206¼ compared with 209¾ at the opening. Western stocks generally were weak, St. Paul losing 1¾, Union Pacific preferred and Southern Hallway preferred 1½ and Great Northern Ore Certificate 1.

Favorable reports concerning Mr. Harriman's condition created an active trading for stocks, with the shorts heavy purchasers. Union Pacific rallied 2½, placing it on the level with Saturday last. Reading also made up its loss and Southern Pacific, New York Central. Northern Pacific and others were quoted about a point above the low figures of the day.

The market closed very active and

about a point above the low lights the day.

The market closed very active and strong. A long interval of dulness was relieved near the close by a lively huying movement which quickly put prices to the highest of the day. Union Pacific and United States Steel were the leaders and were taken in large blocks.

#### PRODUCE.

CHICAGO.

CHICAGO.

Chicago, Aug. 23.—Lower cables and liberal receipts in the southwest caused weakness in the wheat market here today, Moderate rains were reported in the northwest but they were not sufficiently general to cause any apprehension. An enormous movement in the northwest is expected to begin within a few days and this further weakened the market. Opening prices were \$\frac{2}{3}\$ to \$\frac{3}{4}\$ @ \$\frac{2}{3}\$ to \$\frac{2}{3}\$ degrees and \$\frac{2}{3}\$ to \$\frac{2}{3}\$ degrees and \$\frac{2}{3}\$ to \$\frac{2}{3}\$ degrees \$\frac{2}{3}\$ to \$\frac{2}{3}\$ degrees \$

and December at \$4.% to \$5.4. After selling off to \$834, \$\frac{1}{2}\$ the price of September rallied again to \$93\%. December declined to \$44\%.

An official prediction of rain tomorrow for a large portion of the corn belt prompted liberal profit-taking in the corn market. Opening quotations were a shade to \$6.\%. After touching \$65\%. September at 664\% to \$6.\%. After touching \$65\%. September at 400 and \$1.\%. September opened \$1.\%. September at 400 and \$1.\%. September opened \$1.\%. And for a time held within the opening range.

Provisions were firm on light receipts of live hogs. Prices at the start were \$2\% to 10c. higher.

Wheat—A sensational break in cash wheat at Minneapolis caused additional weakness later in the day. The market closed weak, with September down \$1.\%. Corn—The market became still weaker on selling based on reports of rain in Nebraska and on the stump in wheat. The close was weak with September down \$1.\%. Close—Wheat—Sept. \$2.\%: Dec. \$57\%: May. \$37\%. Corn—Sept. \$5\%: Dec. \$57\%: May. \$37\%. Pork—Sept. \$2.\%: Dec. \$35\%: May. \$39\%. Pork—Sept. \$2.\%: Dec. \$35\%: May. \$37\%. Pork—Sept. \$1.\%: Oct. \$1.\%: \$37\%. And September Cash. \$1.\%: Oct. \$1.\%: \$1.\%: Timothy—Sept. \$3.55\%: Oct. \$3.50\%. Clover—Cash. \$1.\%: March, \$12.\%.

# M'WHIRTERS HOLD WINNING HAND

Supreme Court Says That "Dr" James Donaldson Can Not Reopen Case,

Opinion States That Donaldson Comes Into Court With Unclean Hands.

The judgment obtained by William McWhirter against James Donaldson for \$1,353,33 was affirmed by the supreme court today in an opinion written by Justice W. M. McCarty, the chief justice and J. E. Frick concurring. The opinion recalls the story of the fleecing of the two young Scots in a game of poker in the Antiproominghouse on September 19, 1906. In addition to the criminal prosecutions in came to the case William McWhirter brought a civil suit and on October 2, 1907 meanly a year after service of summons judgment by default was rendered against Donaldson for \$1,353.33. On October 12, 1907, Donaldson moved to set aside the default and vacate the judgment and permit him to file an auswer. The district court overruled this motion and Donaldson appealed.

JUDGMENT AFFIRMED. supreme court today in an opinion JUDGMENT AFFIRMED.

JUDGMENT AFFIRMED.

The supreme court affirms the judgment on general grounds and adds that there is another reason why he is not entitled to have the case reopened. "No principle of law is more firmly established, nor more strictly adhered to than that which prevents the setting aside of a judgment to enable a party to interporse an unconscionable defense. In the anster tendered by plaintiff in connection with his motion to vacate the judgment, it is alleged among other things that 'Alexander McWhirter then and there in the immediate presence of said plaintiff, William McWhirter, Lock a hand and engaged in sail game of cards, and then and there layed with this defendant for money and then and there wagered upon the result of seid game—
That as a result of said game—
That as a result of said game—
won said money according to the game this defendant then and there won sala money according to the rules of said game and in accordance with said rules then claimed and took possession of the same.'

"It will be thus observed that appellant seeks to invoke the equitable powers of the court to enable him to retain the ill gotten gains which he nefariously acquired by an open and flagrant violation of the penal statutes of this state. He does not come into court with clean hands. In such case equity gives no relief but leaves the party where it finds him."

WIFE HOLDS INTEREST.

Judge Marshall Decides Referee in Bankruptey Case is in Error.

Judge John A. Marshall of the United States federal court handed down a dccision today in the case of A. H. Bailey. bankrupt, involving two points of law. Bailey, it is stated, owned a lot in Ogden worth \$2,500, in which his wife had an undivided half interest pur chased with her own money. On this property there was a mortgage of \$50. executed by the bankrupt and his wife to secure his debt. In his bankruptey proceedings the referee included the value of the wife's interest in the above

and.

This is held to be an error and Judge Marshall in his opinion says on this point: "To include the value of he undivided interest in the property in determining the homestead of the husand is but to force her to contribute out of her separate property."

It was also held that the fact that the homestead is encumbered with a mortgage does not give the bankrupt a right to a homestead exceeding the maximum statutory value by the maximum statutory value by the

amount of the mortgage.

The order of the referee was ordered vacated and the matter remitted to him determine the homestead right of the
